PROFESSIONAL SUMMARY

First-year Computer Engineering student at UADE with a strong focus on data analytics. Hands-on experience in exploratory data analysis (EDA), SQL querying, data wrangling, and visualization using Python, Pandas, Power BI, and Matplotlib. Fast learner with solid documentation practices and a genuine interest in statistics and data-driven problem solving. Seeking a first trainee or junior opportunity in Data Analytics, with the goal of growing toward Data Engineering.

TECHNICAL SKILLS

Languages: Python, SQL
Data Analysis: Pandas, Jupyter Notebook, EDA, Descriptive Statistics
Databases: SQLite
Visualization: Matplotlib, Streamlit, Power BI, Excel
Version Control: Git, GitHub
Concepts: ETL, Data Pipelines, Data Wrangling, Data Cleaning, Automation, Business Intelligence (BI)

PROJECTS

Olist E-Commerce Analysis Python · Pandas · Matplotlib · Jupyter | 2026

- Performed exploratory data analysis (EDA) on 99,000+ orders from Brazilian e-commerce platform Olist (2016–2018).
- Identified monthly revenue patterns, top-performing product categories (Health & Beauty) and regional sales distribution across Brazil.
- Produced structured documentation with data-driven findings and actionable business insights.

github.com/Tonxt/olist-ecommerce-analysis

Argentina Dólar Tracker Python · Pandas · SQLite · Streamlit | 2026

- Automated ETL pipeline that extracts 7 daily USD exchange rates (official, blue, MEP, CCL, crypto, wholesale, and card) from a public API (DolarAPI).
- Historical storage in SQLite with data cleaning, deduplication and pivoting in Pandas; time-series trend analysis.
- Interactive Streamlit dashboard deployed live (dolar-tracker-lisandro.streamlit.app) and daily automation via Windows Task Scheduler.

github.com/Tonxt/argentina-dolar-tracker

Python Programming Competition – UADE Python | 2026

- Developed solutions in a team-based, time-constrained programming competition.
- Applied data structures, programming logic, and collaborative coding under pressure.

EDUCATION

Computer Engineering (Ingeniería Informática) UADE – Universidad Argentina de la Empresa | 2026 – Present

First year in progress. Relevant coursework: Programming, Data Structures, Mathematics, Statistics, Databases.
